

Q

When is this due??

A

The due date of this report is June 30th.

Q

So, basically no new changes from last year?

A

Only changes from last year is there are less questions in the report now

Q

I have a "new" superintendent beginning 7/1 - can I have both the current and new superintendent in the staff module with the same role?

A

You cannot. The new superintendent will need to be entered by 7/1

Q

Is there a way to save info in form when the entire form is not completed? Last year, I went thru and needed to come back to report, but all info was wiped out.

A

Yes, you can and should save often. After a period of time, all unsaved info will get wiped out

Q

If I have a question specific to my district, who should get that email?

A

Start off by sending the question to the helpdesk

Q

I apologize if this is a silly question, but I just started in my current job position. What exactly does this report track? Is it for wrapping up or staring the new school year?

A

The report is for starting for the new school year. This lets us know who and what schools are open for this school year and what grades are offered, who's are the contacts, etc.

Q

Are there additional documents that will be needed due to COVID-19 preparedness for the Fall?

A

Not through this reporting process. If anything is needed, it will be collected through a different process

Q

What if there is an area that you are trying to address but have no luck, Does that mean that you are not approved? or what is the consequence?

A

This all depends on the individual circumstances. You will need to discuss any school approval issues with Pamela Ford-Taylor.

Q

Is this also where we would input a school name change?

A

Name changes can also carry more implications to an organization's info such as requiring a school id changes and such. You should direct those changes to Richard Bergeron and Kathy Warren.

Q

Have there been any substantive changes to the policies or other documentation required of 60% schools?

A

No.

Q

We have a special class at a gr 3-5 school that is for some grade 6 special students ...can we designate the school to go to 6th grade

A

Yes, you should make the change because you won't be allowed to enroll students outside your grade. You will want to reach out to Richard Bergeron and Kathy Warren.

Q

We are currently building a new school. We are set to stay in our current school, but plan on moving to our new school in November. The new school will have an entirely different name. Should I fill out the form as the current school our new school?

A

The current school. Once the new school opens then you will want to resubmit your Maine Schools with the new data.
